

MSHSL SPRING SPORTS LIMITATIONS

March 13, 2020 @ 4:00PM

Legacy Community,

The Minnesota State High School League has taken several precautions to prevent any spreading of COVID-19. This includes cancelling the remainder of the winter sports season. The MSHSL recently came out with their restrictions for the spring sports season.

Legacy assures you that the safety of our student athletes and coaches is taken seriously. We will be suspending practices over spring break and will resume practice beginning Monday, March 23rd. The athletic department, school administration and school board will be meeting next week to continue conversations about the precautions we will be taking as a school community and for our athletes.

We will continue communication through this time as we receive more information from MSHSL and the Minnesota Department of Health. We are thankful that the spring season has not been suspended indefinitely and we are excited to begin organized practices after break.

We are at peace that God is in control.

Have a blessed Spring Break,

Legacy Athletic Department
