

COVID HEALTH SCREENING

Student or Household Members

DAILY SELF-SCREENING

- ▷ All students must be self-screened by a parent before coming to school each day. Faculty and Staff will be required to self-screen before arriving at school. If you have symptoms, please stay home and contact the School Nurse and your health care provider.

OTHER DIAGNOSIS

- ▷ For people with other diagnoses (e.g., norovirus, strep throat) that explain the symptoms, or when a health care provider says symptoms are connected to a pre-existing condition; stay home until symptoms have improved and the student is fever free for 24 hours without fever reducing medication. Follow specific return to school guidance from the health office. If symptoms related to a pre-existing condition change or worsen, talk to a health care provider to determine next steps. Siblings and household members do not need to stay home.
- ▷ Household members who are asymptomatic and vaccinated or have tested positive in the past 90 days do not need to quarantine.
